Student's ID: 190053983

Introduction

To help you interpret the information and tables of data in this feedback please note:

- The score is the number of correct answers you achieved at SBAs.

- All scores were then converted into Action University's Generic Marking Scale (AUGMS) for undergraduate programmes, with pass-mark fixed at 35.50%.

- A pass-score was determined by means of a standard setting methodology, equivalent to the 35.50% pass-mark in AUGMS. So to find out if you have achieved a pass, please check if your overall mark is equal to or over 35.50%.

- It may help you understand what question format (SBA) you need to work at further, by looking at your raw scores for each format. However, please note that in this exam there is considerable compensation across question formats, and in any one exam you will only need to achieve an overall pass for question formats combined.

- You will also want to look at your performance in each domain: since this gives some idea of your relative strengths. However, when the total number of questions in each domain is low, this will not be very accurate, so please use this information as a guide only.

- When you have low scores in a number of domains it usually means you need to study all domains more thoroughly - this is an important take-home message.
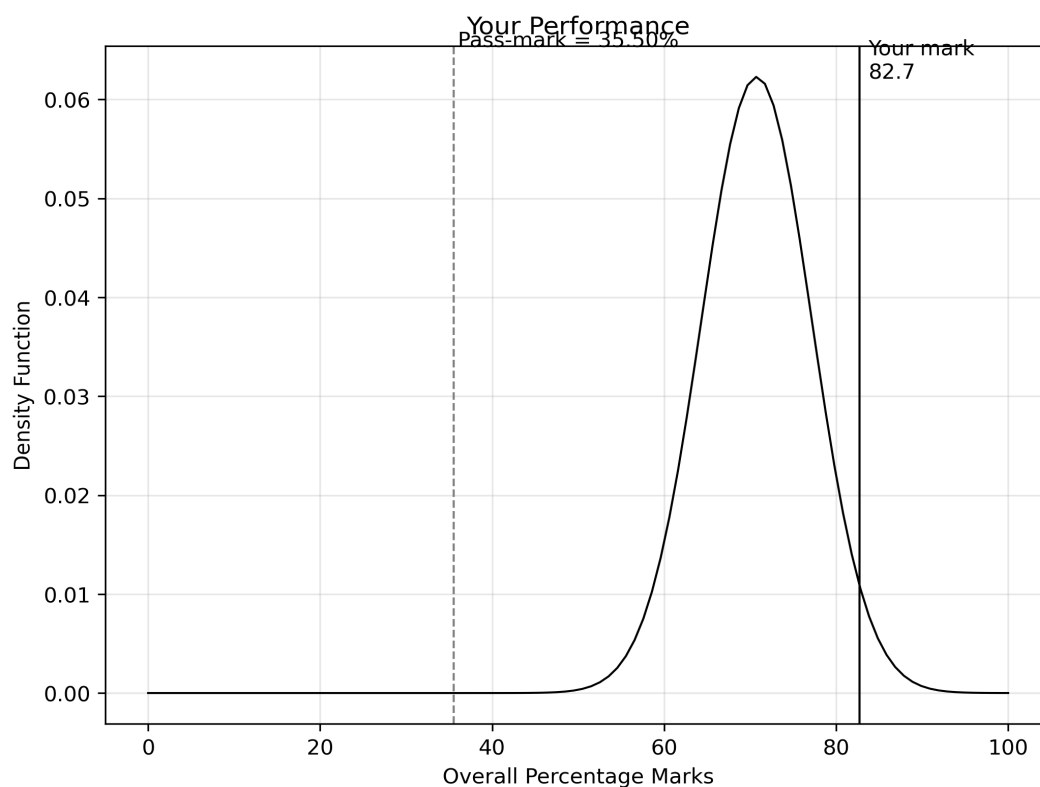

Performance

Your summary of results (RAW SCORES) The table below summarises your SCORES for the overall exam (%). SBAs. The class min, max, mean and standard deviation of scores are also displayed.

Exam component	Your score	Total Available	Min	Max	Mean	StDev
Overall Scores	82.7	100	60.2	82.7	70.8	6.41
SBA	83.4	100	60.4	83.4	71.2	6.71
SAQ	76.5	100	52.9	76.5	66.9	7.81

Your overall performance (MARKS)

The graph below shows your maximum percentage MARK for all question formats combined and the overall pass-mark fixed at 35.50% (rounded to 40% and equivalent to the overall pass-score obtained via the Angoff standard setting method, equal to 55.8 out of 100).

Your Overall Outcome at the Current Exam: Excellent Pass

Mark Range (Lower Bound)	Mark Range (Upper Bound)	Descriptor	Grade
69.50%	>	Excellent Pass	A
59.50%	69.49%	Very Good Pass	B
49.50%	59.49%	Good Pass	C
44.50%	49.49%	Pass	D1
39.50%	44.49%	Borderline Pass	D2
<	39.49%	NOT Pass	E

Please note: If your outcome was Borderline Pass, that means that you have passed the current exam, but it should draw your attention to how close your performance was to the pass-score. Grades and Descriptors listed are indicative purposes only. Please note your end of year transcript for summative grades will only list marks and decisions.

Your summary of results (RAW SCORES)

The table below summarises your SCORES for the overall exam (%). SBAs. The class min, max, mean and standard deviation of scores are also displayed.

Exam component	Your score	Total Available	Min	Max	Mean	StDev
Overall Scores	83	100	60	83	70.76	6.41
SBA	83	100	60	83	71.20	6.71
SAQ	76	100	53	76	66.88	7.81

Decile ranking

Your decile rank is reported below. This is a measure of your performance in comparison to the performance of the other students who sat the exam.

You are in the 1st decile.

How to interpret your rank:

- If you are in the 1st decile, then you are in the top 10% of the cohort.

- If you are in the 2nd decile, then you are in the top 20% of the cohort.

- If you are in the 3rd decile, then you are in the top 30% of the cohort.

- If you are in the 4th decile, then you are in the top 40% of the cohort.

- If you are in the 5th decile, then you are in the top 50% of the cohort.

- If you are in the 6th decile, then you are in the bottom 50% of the cohort.

- If you are in the 7th decile, then you are in the bottom 40% of the cohort.

- If you are in the 8th decile, then you are in the bottom 30% of the cohort.

- If you are in the 9th decile, then you are in the bottom 20% of the cohort.

- If you are in the 10th decile, then you are in the bottom 10% of the cohort.

In reading this information, please bear in mind:

- The decile rank here presented does NOT imply any pass / fail decision nor does it correspond to any prize or merit.

- This decile rank does NOT translate directly into the ranking for the UK Foundation Programme, the latter being the result of weighting across all summative exams in the MBChB, from Year 1 to Year 5.

- Students may leave or join your cohort later in the programme, and this could shift the final ranking for the UK Foundation Programme.

For all the reasons listed above, please only use this information formatively, aiming to inform and improve your future learning.
